PROFESSIONAL EXPERIENCE

Ernst & Young | Digital Transformation Services

Singapore

Technology Consulting Intern

Jun 2025 - Aug 2025

- Supported 4 agile sprints redesigning a self-service UI/UX for the Ministry of Manpower, improving accessibility for over 1 million foreign employees navigating immigration and employment compliance processes.
- Facilitated 12 stakeholder workshops, aligning solution design with agency objectives and users needs and pain points.
- Evaluated 20+ LLMs with a cost-benefit and implementation feasibility framework and presented recommendations to senior managers and the client team.

CAMPUS & LEADERSHIP EXPERIENCE

Tufts Women in Product (WiP)

Medford, MA

Director of Marketing

May 2025 - Present

- Founded the organization's marketing function, building brand identity and outreach strategy from the ground up.
- Designed and led campaigns and events to establish WiP's presence and foster cross-campus collaborations.

Tufts University IDEA Lab

Medford, MA

Project Lead, Design Evolution

Sep 2024 - Aug 2025

- Leading a 15-person team building an AI-powered design platform that learns from human creative patterns to generate and iterate on designs faster,
- Developed an ML-powered image generation platform by conducting user research, competitive analysis, and Figma prototyping, using tools like OpenAI models/APIs, TensorFlow, and OpenCV for design system integration.

Tufts Consulting Collective

Medford, MA

Analyst

Sep 2025 - Present

- Collaborated in a 9-person consulting team to develop an AI go-to-market strategy and partner ecosystem roadmap, prioritizing ERP/SI/ISV partnerships using a structured fit rubric.
- Independently rebuilt the organization's public-facing website from scratch using HTML, CSS, and JavaScript, improving visual identity and user experience.

Tufts Jumbocode

Medford, MA

Software Developer

Oct 2025 - Present

- Developed and launched a full-stack web app using React, Next.js, TypeScript, and PostgreSQL to streamline donation tracking and reporting for an NGO, including an admin dashboard for real-time data management.
- Drove agile sprint cycles to rapidly iterate on prioritized features, mirroring real-world consulting workflows.

PROJECTS & AWARDS

Tufts Production 2025 | Awarded 2nd Place @ Tufts Production

Medford, MA

Trovr – Product Manager ([Github](#))

Mar 2025 - Present

- Managed product roadmap for a React + Supabase campus marketplace, enabling secure exchanges among students.
- Conducted user research with 20+ students to validate platform requirements and inform inclusive design decisions.

HackHarvard 2025 | Best Financial Hack Award by Capital One

Cambridge, MA

C2Pay – Developer and Founder

Oct 2025

- Developed C2Pay, a mobile SDK that applies risk-based adaptive MFA to enhance payment security by 30%.
- Implemented C2PA manifest generation and TEE-backed key handling for verifiable, seamless transactions.
